

# Drive Customers From The Web To Your Restaurant

100% Commission Free | Risk-Free Trial | No Contracts

SCHEDULE NOW

## Reach 80% Of Local Customers Near You

We connect your restaurant with consumers across all digital channels such as local search, social media, and online review sites. We then precisely target these consumers using demographics and proximity data and re-engage them to keep them coming back. It's that simple.

### Get More Customers

We market your restaurant in your local neighborhood across all digital channels such as Google, Bing, Facebook, Pinterest, media, review sites and more.

### Better User Experience

A better user experience for your customers with branded web & mobile apps that makes online ordering easy. No website needed and pay no commission fees.

### Keep 'Em Coming Back

Keep your customers engaged with your brand with built-in customer engagement tools including push notifications, SMS messaging, email marketing, and more.

LEARN HOW WE DRIVE TARGETED LEADS TO YOUR RESTAURANT

# Digital App Technology Your Restaurant Must Have

Today, consumers expect a fast and engaging user experience based on what they're doing at any time, anywhere, and on any device. With this new "consumer-driven" model, having an on-demand IT marketing team and the technology to manage everything leads to better customer experiences.

## Progressive Web Apps

Web apps are landing pages that incorporate the latest technology to deliver an app-like user experience.

## Android & iOS Mobile Apps

Mobile apps make it easy for your customers to place online orders, review order history and place new orders.

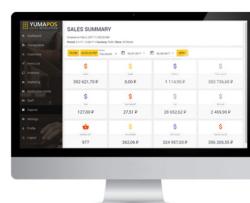

## Digital Sync Terminal

Dedicated digital terminal pulls orders from the web in real-time and helps your staff manage online orders more efficiently.

## Restaurant Dashboard

Gain valuable insights into your digital channels including sales, customer data, menu items, buying habits, and more.

## Online Ordering

Take back control of your online ordering. Customers payments are deposited direct to you with no commission fees.

## Data Analytics

Gain valuable insights into consumer data including buying habits, frequency, purchasing volume and other KPIs.

## Push Notifications

Keep your brand front and center with push notifications. Send out real-time promotions to your customer lists.

## SMS Messaging

Connect with your customers with SMS messaging. Segment your audience list and send different messages.

## Email Marketing

Remind your customers of new or upcoming specials and events. Easily schedule the delivery of your emails.

## Digital Gift Cards

Sell gift cards online and make it easy for customers to purchase online without visiting your restaurant.

## Customer Loyalty

Reward your loyal customers with an online loyalty program that incentives customers to place online orders.

## Menu Updates

Update your web and mobile apps through a single control panel. Make price changes, menu updates and 86 menu items.
